Butler Side Table

This handsome table provides you with the perfect place to put your keys or coins or other small items when you return home.

The styling of the table is distinctly animal-like in appearance, almost as if it could walk over to you if called.

It can easily be placed in an entrance area or next to a comfortable armchair, as it sits quietly holding your belongings.

The Butler Side Table is manufactured in Indonesia from sustainably sourced, legally harvested, and traceable wood sources.

Butler Side Table shown above in Oak

- Available in Solid Oak or Teak wood
- Knock Down construction for easy transport
