Central Park Lounge Chair

The Central Park Lounge sets a very relaxed tone with its laid back, modern shape.

The oversized backrest is not only comfortable but provides a sense of fun in this practical and functional design.

The frame is constructed of stainless steel with solid teak wood slats, making the chair perfect for all outdoor applications, from residential to commercial.

The Central Park lounge chair is also stackable for easy transport and storage.

The Central Park Lounge Chairs are manufactured in Indonesia from sustainably sourced, legally harvested, and traceable wood sources.
