Logg Cabinet

The Logg cabinets are inspired by traditional log cabins found amongst mountain forests. The rounded shapes that form the drawers give an extremely modern yet very warm feel to the design.

The handles are hidden at the bottom of each drawer to maintain the clean appearance, which also adds an element of surprise when the cabinet is experienced for the first time, with the user wondering how to open each drawer.

The logg cabinets are available in Oak and Teak and use a combination of veneered plywood and solid wood. The legs are powder-coated steel.

The Logg Cabinets are manufactured in Indonesia from sustainably sourced, legally harvested, and traceable wood sources.

Logg Cabinet shown in Oak and Teak

- Available in Oak or Teak Wood
- Solid Wood and Veneer Plywood construction
- Powdercoated Steel Legs
